

METAL RIDGE BLASTER

Solar Metal RidgeBlaster

Introducing our brand new Solar Metal RidgeBlaster® roof fan and solar panel for boosting your attic ventilation on metal roofs. It is a perfect application for sheds, garages and even homes with metal roofs. Remove hot attic air from the highest point even more effectively with Solar Metal RidgeBlaster®!

Solar Metal RidgeBlaster®
Metal roof design for ridge ventilation.

120mm High Speed Fan	Specs	Solar Panel	Specs	Entire Vent	Specs
Total Fan Wattage	7.8	Watt	3	Vent opening type	open ridge
Solar Power CFM	39 cfm	Operating Voltage	12	Net Free Vent Area	depends on your ridge length
Bearing Type	Double ball bearing	Maximum Voltage	17	Fan Mount	Patent-pending fan mount that installs at the ridge
Fan Speed RPM	2700	Max Amps	0.21	Flashing Material	18 gauge aircraft aluminum flashing
Noise Level in dBa	42.6	Operating Temp	-40°C to 85°C	Net Weight	2.2 lbs
Air Flow in CMF	39 cfm	Power Tolerance	± 3%	Gross Weight	2.8 lbs
Rated Voltage in DC	12	Cells	Multicrystalline PV Module	Boxed Size	13.25"x9.25"x5.75"
Rated Current in Amps	0.65	Number of Cells	36		
Dimensions	120 x 120 x 25 mm	Module Dimension	195mm x 188mm x 18mm		
Weight	4.8oz	Solar Panel Weight	0.50Kg/1.10lb		
Operating Temp	14°F ~ + 149°F (- 10°C ~ + 65°C (65 %RH))	Length of Life	25 year-rated		
Storage Temp	-22°F ~ + 158°F (- 30°C ~ + 70°C (65 %RH))				
Length of Life	50,000 hours
