**THE REVOLUTIONARY WAY
TO VENT HOT AIR**

FOR SHEDS

WWW.SOLARBLASTERFANS.COM

FINALLY, A SHED YOU'LL ENJOY WORKING IN!

SHED VENTILATION BENEFITS:

ENVIRONMENT

HEAT

AIR QUALITY

MOISTURE

VENTED SHED

COOLER WORK ENVIRONMENT

HEAT CAN ESCAPE LEAVING COOLER AIR

CIRCULATION OF FRESH AIR MEANS YOUR SHED CAN FINALLY BREATHE (AND SO CAN YOU)

REMOVED WITH PROMOTION OF AIR MOVEMENT

- HEALTHIER/DRYER ENVIRONMENT
- PROTECT YOUR TOOLS FROM RUST
- WON'T ENCOURAGE PESTS TO TAKE UP RESIDENCE
- PROLONG YOUR SHED'S LIFE

UNVENTED SHED

HOT & DAMP WORK ENVIRONMENT

HOT AIR HAS NO WAY TO ESCAPE

DANK, STALE, SMELLY, MUSTY AND STAGNANT AIR BUILDS UP INSIDE WHICH CAN EVEN BE TOXIC

LACK OF AIR PROMOTES MOISTURE TO STAY LEADING TO:

- MOLD/MILDEW GROWTH
- DAMAGED/RUSTED TOOLS
- PESTS LOVE MOIST, SOFT WOOD
- WOOD ROT OF YOUR SHED

OUR PRODUCTS

SOLAR ROOF BLASTER

RIDGE BLASTER

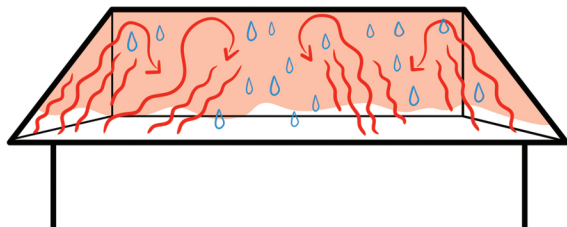

METAL RIDGE BLASTER

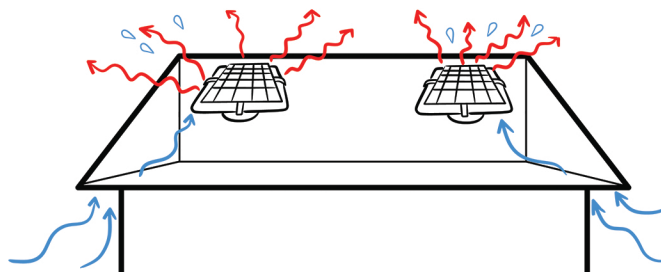

PROBLEM: POORLY VENTILATED SHED

THE AIR IN YOUR SHED CAN RISE TO 140-150°F ON A 90°F DAY. THIS HOT AIR ACTS LIKE AN OVEN. LEADING TO DAMAGING THE STRUCTURE & POTENTIALLY WHATEVER YOU ARE STORING. MOISTURE IS AN ISSUE THAT CAN LEAD TO SERIOUS PROBLEMS AS WELL.

SOLUTION: SOLAR-POWERED VENTS FOR YOUR SHED

BY USING THE POWER OF THE SUN, YOUR SHED CAN FINALLY GET RID OF THE HOT, STIFLING AIR AND MOISTURE THAT LEADS TO ROT, RUST AND MOLD; AND INSTEAD, HAVE AN INFLUX OF FRESH AIR THAT WILL MAKE YOUR SHED INTO A COOLER, WORKABLE ENVIRONMENT.
